## Adding video to a forum.

If you have created video in your **my media** section on Languages@Warwick you can easily share it through a forum.

1. Log in to Languages@Warwick and go to the course. You can find the forum list through the activities block on your course:

2. Click on the forum you want to post to and create a new post or reply to an existing post. Either will give you the following text editing block:

- 3. Click on the film icon to find your video. If it is in your my media folder make sure that you have already set it to share with this course in the **my media** area.
- 4. Choose the find button on this screen:
